I received a call from Kevin Maroney, Deputy Assistant Attorney General, Internal Security Division of the Department. He inquired _____

The Philadelphia Office advised that _____

The

Philadelphia Office also believes _____

The above was furnished to Maroney. He stated Mardian had been in touch with Sullivan and it was his understanding that the Internal Security Division would be furnished with material so that a court order could be obtained. I inquired as to what type of court order was being contemplated and he said they plan to get a court order under Title III requesting that approval be obtained for _____

He also indicated he thought perhaps it would be possible _____

I advised him that this was a legal determination which the Department would have to arrive at and we would await his advice. I also pointed out that under Title III in order to obtain a court order we had to follow certain procedures which were set by the Department and we would want to strictly adhere to these procedures.

ACTION TO BE TAKEN

When the affidavit is received it will be carefully reviewed and appropriate recommendations submitted to the Director.

Attached for inclusion in running damage assessment brief (pages 209 - 214) are write-ups on seven additional items relating to work of Domestic Intelligence Division (DID) not previously known stolen from former Media, Pennsylvania, Residence Agency. Documents came to light when publicized in press. Philadelphia Office (PHO), based on press description of contents of documents, reviewed files and identified stolen serials in question.

Racial Matters

Three items relate to work in this area. One, a PHO memorandum dated 5/27/70, shows contact with Potential Criminal Informant, identified by name, and police in effort to develop background on individual of interest in racial matter investigation. Remaining two documents, PHO letterhead memoranda (LHM), both classified "Confidential," relate to surveys conducted by PHO in 1967 and 1970 concerning potential for racial violence in their territory. Page 15 of 40-page 1970 LHM and pages 59 - 63 of 108-page 1967 LHM were publicized in press to "expose" Bureau use of [redacted]

[redacted] as informant. (Full facts regarding [redacted] previously furnished in Cotter to Brennan memoranda, 5/17, 20/71.) PHO advised that while only few pages of both LHMs reported in press, probability exists that both complete LHMs were stolen. However, cover communications which forwarded LHMs, and which contain identity of informants were not stolen.

New Left and Miscellaneous Matters

One new left and three miscellaneous serials involved. PHO memorandum, 6/7/68, attached Philadelphia police report detailing police coverage and activities during 1968 Students for a Democratic Society (SDS) demonstration. Three miscellaneous items interrelated dealing with necessity for field to promptly report incidents of student agitation, antiwar demonstrations

and racial incidents. One item is Bureau letter to all offices, 8/28/70, setting out clear-cut guidelines regarding necessity for timely reporting of such incidents and clarifying the mechanics involved in such reporting. PHO memorandum, 9/23/70, lists colleges and universities in Philadelphia territory and Agents assigned responsibility for developing sources and information thereat. Document clearly states, without mentioning names, that Bureau has informants on campuses and utilizes students in such roles.

Damage Assessment

The surfacing of [redacted] as Potential Criminal Informant of PHO is not, in itself, damaging.

b7D

[redacted]
Excepting [redacted] no other informants were identified. But, as noted above, one document clearly pointed out that Bureau utilized informants and sources on campuses and further noted that students were sometimes used in this capacity. This point, however, has been hashed over in the press in the past, based on other surfaced documents stolen from Media Resident Agency and it is not believed that significant additional damage was done in this area.

Re Buffalo airtel to Bureau, 6/4/71.

Enclosed for the Bureau are five copies of an LHM, dated and captioned as above. Also enclosed for Philadelphia are two copies of above LHM. (C)

This LHM is being classified "Confidential" inasmuch as it contains information from sources of continuing value, the disclosure of which could jeopardize their identity thus adversely affecting the internal security of the U.S.

It is noted that subject has previously been interviewed and was considered to have been cooperative during this interview. A telephone call was placed from subject's home telephone in Rochester, N.Y. on 3/8/71 to Niagara Falls, N.Y. and he was working from 8:00 AM to 4:45 PM on 3/9/71. He is blind in one eye and has been sick with meningites since 4/2/71 and has been recuperating at his parent's home in Niagara Falls, N.Y. Handwriting and hand printing of subject has been submitted to FBI Lab for comparison purposes and subject's photograph has been submitted to Philadelphia Office for investigative assistance. He has no history of violence and it is unlikely that he could be involved in Medburg case. Therefore, in view of the above, he is being eliminated as a suspect and Buffalo Office is conducting no further investigation concerning subject. (C)
